

# WE'RE REINVENTING TAMALE

***At Torrico we work on the development of new food alternatives in accordance with market trends, aided by technology, always prioritizing quality.***

**We're proud to introduce you the new ROLLED TAMALES**

-Exclusive and innovative Tamale Design, Patented Pending.

-Unique taste, due to its manufacturing with natural, fresh and best quality raw materials.

-Easy and fast to cook to final consumers and food service's industry chefs.

-Designed to meet the needs and demand of Wholesalers, Supermarkets, Minimarkets, small and large distributors.

-Production capacity 80,000 Tamales daily, guaranteeing timely supply according to the expected demand.

***More Nutritious, hygienic-made,  
and practical to store/cook.***

- Made in our state in the art, and GMPs facilities.
- Our patented pending manufacturing process, preserves more nutrients than traditional ones.
- Exclusive tamale hands-free making process. The tamale is never tampered with during manufacturing, guaranteeing a safety and bacteria-free product.
- Thermoformed MAP packaging, vacuum sealed.
- Carefully managed while cold chain process, from the storage of raw materials to product delivery.
- The whole of our manufacturing process not just reduces the use of sugar, salt and vegetable oil, but also makes it easy to get a long shelf life without artificial preservatives.
